READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Assessment and Collection of Fees in Summary Cases on Appeal for a Trial De Novo

The Criminal Procedural Rules Committee is planning to recommend that the Supreme Court of Pennsylvania revise the Comment to Rule 462 (Trial de novo) to clarify how fees in summary cases are to be assessed. This revision would make it clear that fees and costs assessed in summary cases may be assessed only once, either by the district justice at the conclusion of the summary case or by the common pleas court at the trial de novo. This proposal has not been submitted for review by the Supreme Court of Pennsylvania.

The following explanatory Report highlights the Committee's considerations in formulating this proposal. Please note that the Committee's Report should not be confused with the official Committee Comments to the rules. Also note that the Supreme Court does not adopt the Committee's Comments or the contents of the explanatory Reports.

The text of the proposed rule changes precedes the Report. Additions are shown in bold.

Once sentence is imposed, paragraph (H) makes it clear that the case is to remain in the court of common pleas for execution of the sentence and collection of any costs **or fees in the case that were not collected by the district justice**, and the case may not be returned to the district justice. The execution of sentence includes the collection of any fines and restitution.

Costs and fees authorized by law are to be assessed against a defendant on a per case basis. When a defendant appeals a summary conviction for a trial de novo in the court of common pleas, this is the same case that was before the district justice. Therefore, any costs and fees in the case may be assessed and collected only once, either by the district justice at the conclusion of the summary trial or in the court of common pleas following a trial de novo.

Rule 462 Comment Revision

ASSESSMENT AND COLLECTION OF FEES IN SUMMARY CASES ON APPEAL FOR A TRIAL DE NOVO

The Criminal Procedural Rules Committee is proposing the Court make changes to Rule 462 (Trial de novo) to make it clear that fees and costs assessed against a defendant in a summary case may be assessed only once, either by the district justice at the conclusion of the summary case or by the common pleas court at the trial de novo. These changes clarify in the Rule 462 Comment the intent of the summary case rules that a summary case that is appealed for a trial de novo is the same case as the summary case before the district justice.

The Committee received an inquiry concerning whether the practice in some judicial districts of collecting two Judicial Computer Project (JCP) fees—one when a defendant is convicted by a district justice, and the second when the defendant is convicted following a trial de novo in the court of common pleas—conflicts with the Criminal Rules. In determining how to respond to the inquiry, the Committee looked at the Committee rule history and noted that the rules always have intended that the right to a trial de novo in the court of common pleas following a summary conviction is considered to be the same as though the defendant never had been tried and convicted at the district justice level; i.e., the case essentially starts over with the appeal, so there is only one case. We also reviewed 42 Pa.C.S. § 3733 (Deposits into account) (relating to the Judicial Computer Augmentation Account), and concluded this statute does not address nor sanction specifically the practice of twice assessing the fee when a summary case is appealed to the court of common pleas for a trial de novo.¹

In view of the Committee's determination that when a summary case is appealed to the common pleas court for a trial de novo, the trial in common pleas is the same case and any fees and costs in the case should not be assessed against the defendant two times, and the fact that some judicial districts are assessing these costs and fees twice, we agreed the issue should be made clearer by adding language to the Rule 462 Comment encompassing the concept that the trial de novo is not a new case but is a continuation of the original case and consequently any costs and fees assessed to the case may be assessed one time only; therefore, any fees or costs that are charged to a case when it is at the district justice level may not be also charged at the court of common pleas level when the case is appealed for a trial de novo.

Accordingly, the Committee is proposing the addition of the following language as a new paragraph in the Rule 462 Comment:

Costs and fees authorized by law are to be assessed against a defendant on a per case basis. When a defendant appeals a summary conviction for a trial de novo in the court of common pleas, this is the same case that was before the district justice. Therefore, any costs and fees in the case may be assessed and collected only once, either by the district justice at the conclusion of the summary trial or in the court of common pleas following a trial de novo.²

REPORT

Proposed Amendment to Pa.R.Crim.P. 535

APPLICATION OF BAIL DEPOSIT TO FINES, COSTS, RESTITUTION

I. Introduction

The Criminal Procedural Rules Committee is proposing that Pa.R.Crim.P. 535 (Receipt for Deposit; Return of Deposit) be amended to provide in the text of the rule the specific prohibition that the court official who accepts a deposit of bail may not inquire of the depositor whether the depositor consents to have the cash bail deposit retained to be applied toward the defendant's fines, costs, or restitution, if any. This proposed amendment is not a change in the current law concerning the use of bail money deposits, but rather is a clarification of the provision in the Rule 535 Comment cross-referencing *Commonwealth v. McDonald*, 382 A.2d 124 (Pa. 1978), in which the Court held that "a deposit of cash to satisfy a defendant's monetary bail condition that is made by a person acting as a surety for the defendant may not be retained to pay for the defendant's court costs and/or fines."¹

The Committee undertook a review of the issue of using monetary bail deposits to pay a defendant's court costs and fines following an inquiry from the Common Pleas Court Management System (CPCMS) staff whether the monetary bail deposit may be retained to offset the defendant's fines, costs, restitution, and attorney's fees. The CPCMS staff noted monetary bail deposits are being retained for this purpose in some judicial districts notwithstanding the language in the Rule 535 Comment, and these judicial districts asked that the CPCMS be designed to accommodate the practice.

II. Discussion

The Committee approached the issue from two perspectives: (1) whether the practice in some judicial districts of using bail deposits to offset fines, costs, and restitution is

permissible under the rules and (2) if not, whether the rules should be amended to permit the practice. From a review of the Criminal Rules and law, the members concluded that the practice is contrary to the purpose of bail, which is to ensure a defendant's appearance at all court proceedings, and conflicts with Rule 535(D), which provides that the deposit shall be returned to the depositor, less any bail-related fees or commissions authorized by law, and the reasonable costs, if any, of administering the percentage cash bail program.

In considering whether Rule 535 should be amended to permit a court official to ask a bail depositor to agree to the use of the bail deposit to offset fines, costs, and restitution, the members identified a number of practical concerns about such a practice:

(1) using bail as an offset is contrary to the purpose of bail;

(2) requesting the depositor to agree may be coercive on and confusing to the bail depositor, who frequently will not fully understand the nature and consequences of the agreement he or she is being asked to make;

(3) requesting the defendant's agreement easily could become an improper condition of release on bail;

(4) permitting the practice could lead to the unintended and unacceptable collateral consequences of police officers no longer exercising their discretion to release defendants pursuant to Rule 519(B) or bail authorities no longer utilizing ROR or conditional release in order to ensure the collection of fines and costs; and

(5) such a practice is inequitable and unfair because, for example, some defendants are given ROR and others are required to post a monetary condition of bail for the same offenses, such as when you have a resident defendant and a non-resident defendant.

In view of these considerations, the Committee agreed the rules should not be amended to permit the practice; rather, the rules should be amended to include a specific prohibition against the practice. The Committee further agreed the amendment should be incorporated into the text of Rule 535 and should be limited to a prohibition on the request for consent to use the bail deposit to offset fines, costs, and restitution at the time the monetary bail deposit is made,² leaving the questions about when, if ever, the bail deposits may be used to offset fines, costs, and restitution to the courts.³

The proposed new language being added is new paragraph (A)(2), with a correlative explanatory paragraph added to the current provision in the Comment citing *Commonwealth v. McDonald*. In addition, although the new provision is not a change in the intent of the rules, because it is a change in what is the current practice in some judicial districts, the Committee agreed the first sentence of the Comment that provides "this rule is not intended to change current practice" should be deleted.

[Pa.B. Doc. No. 03-2443. Filed for public inspection December 26, 2003, 9:00 a.m.]

¹ This provision was added to the bail rules in 1995 as part of the general reorganization and revision of the bail rules. See Committee explanatory Final Report, 35 Pa.B. 4116 (September 30, 1995).

² The Committee also agreed to advise the Administrative Offices of Pennsylvania Courts (AOPC) that, to ensure compliance with the rules concerning using bail to offset fines, costs, and restitution, there should not be any type of form either sanctioned by the rules or AOPC or produced by the CPCMS that could be used to obtain the consent of the depositor.

³ The members also discussed the practice of some attorneys entering into an agreement with their client for the use of the bail deposit for attorneys' fees. Because this is an agreement between the attorney and the defendant, the Committee did not think the practice should be addressed in the rules.

Modification of Bail By Issuing Authority Prior to Preliminary Hearing

The procedures for modification of a bail order by the issuing authority were amended in 2004 to permit the issuing authority to modify bail at any time before the preliminary hearing on the issuing authority's own motion or request of a party when, for example, new information becomes available concerning the defendant that would affect the issuing authority's decision concerning the type of release and the conditions of release imposed at the preliminary arraignment.

Pursuant to this rule, the motion, notice, and hearing requirements in paragraphs **[(B)](C)(1)** and **[(C)](D)(2)** must be followed in all cases before a common pleas court judge may modify a bail order unless the modification is made on the record in open court either when all parties are present at a pretrial hearing—such as a suppression hearing—or during trial.

MODIFICATION OF BAIL BY ISSUING AUTHORITY PRIOR TO PRELIMINARY HEARING

Introduction

The Criminal Procedural Rules Committee is proposing the Court amend Rule 529 (Modification of Bail Order Prior to Verdict) to provide that an issuing authority may modify a bail order at anytime following the preliminary arraignment through the preliminary hearing. These changes address what the Committee learned is a systemic problem caused by the unavailability at the preliminary arraignment of the relevant information an issuing authority must have in making a bail decision and determining the appropriate type of release.

The Committee's initial discussions were prompted by correspondence and inquiries we received from several individuals concerning a tragic case in which a police officer, during a routine traffic stop, was shot and killed by an individual who had a criminal record, was on parole, and who had been released on \$1,000/10% bail in a "recent" weapons case because the district justice setting the bail in that case was not provided with the defendant's criminal history nor did the district justice have any other access to the defendant's criminal history.

One of the correspondents, Mike Schwoyer, Chief Counsel for the House Judiciary Committee, asked the Committee to consider a modification of the complaint form to provide a check off box for the police to indicate that they had done a criminal history check and had provided/would provide the information to the district justice. During the Committee's consideration of Mr. Schwoyer's suggestion, we also explored the possibility of requiring the bail authority to complete a form indicating the release criteria considered in determining the type of release under Rule 523. During our discussion of these two possible rule changes, the Committee agreed the problem that needed to be addressed is the unavailability of adequate bail-related information at the preliminary arraignment when the issuing authority is making a bail determination and that simply requiring a box be checked or the completion of a form would not resolve the problem. We also thought the rules cannot mandate which agency is to provide the relevant bail information at the preliminary arraignment, and, therefore, considered other means of addressing this problem. We agreed providing the issuing authority the opportunity to modify bail following the preliminary arraignment and before the preliminary hearing, when for example, information that could affect the defendant's bail status becomes known to the issuing authority, would provide a reasonable, equitable resolution to the problem. Because Rule 529(A) only permits an issuing authority to modify bail between the preliminary arraignment and the preliminary hearing when there is a request from the defendant and the consent of an attorney for the Commonwealth, the Committee turned its attention to modifying Rule 529.

The Committee reviewed the history of Rule 529¹ and found that when the rule originally was adopted in 1973 it provided, "Bail may be modified by the issuing authority at the preliminary hearing when counsel for either party makes known to him facts relating to the standards set forth in Rule 4004 (current Rule 523) which were not known or which were misrepresented when bail was originally set, or which have changed since the setting of bail."² In spite of the literal wording of the rule, however, district justices were resetting bail at a time before the preliminary hearing, which raised concerns of "district justice shopping" and that the "non-sanctioned practice" provided a means for collusion between a bondsman and a district justice or for a bondsman to obtain a bail reduction unbeknownst to a defendant and charge a premium based on the higher bail amount. This non-compliance with the rules and the concerns about the abuses led to the 1983 amendment that prohibited the pre-preliminary hearing modification of bail by an issuing authority except when requested by the defendant with the consent of the district attorney. See the Committee Explanatory Report 13 Pa.B. 125 (January 8, 1983).

In discussing the rule history, the Committee noted there existed, and exist today, legitimate reasons why an issuing authority might want to modify bail between the preliminary arraignment and preliminary hearing: for example, there often are cases in which a defendant, who would be considered "a good bail risk," has a high bail set because of the lack of adequate information about the defendant, or a "duty" magistrate who is not familiar with

the defendant sets a high monetary condition of bail and the "proper" issuing authority who knows the defendant would have set a lower monetary condition of bail. In these situations, the present "defendant request/Commonwealth consent" requirement is an inadequate provision for allowing the issuing authority to modify the amount of bail because it results in unnecessary detention until 1) the defendant makes the request to modify bail and the attorney for the Commonwealth gives consent, 2) a motion is heard in the court of common pleas, or 3) the time of the preliminary hearing. Similarly, there may be equally important and compelling reasons the issuing authority would want to increase the amount of bail, such as in the case that triggered the Committee's discussions.

In view of the rule's history, the procedures in other jurisdictions that permit their courts to modify bail "on their own motion," the problems concerning the lack of opportunity for the issuing authorities to modify bail, and the Committee's position that the issuing authorities should be able to modify bail during the time period between the preliminary arraignment and the preliminary hearing, the Committee agreed to propose an amendment to Rule 529.

Discussion of Proposed Changes to Rule 529

The Committee agreed that to emphasize the changes, the new provision should be set forth as a separate paragraph, new paragraph (A), that would apply to the time period subsequent to the preliminary arraignment and prior to the preliminary hearing.

The Committee considered including in the proposal an "additional information" requirement; that is, the issuing authority's authority to modify the bail before the preliminary arraignment would be limited to when he or she receives additional information about the defendant that would affect the defendant's bail status. And we contemplated that there are a variety of ways in which the additional information could be made known to the issuing authority: from the Commonwealth, the defense attorney, a third party, the court system, other judges, or other people in the system, electronically, or from the newspapers. Upon reconsideration, however, the Committee agreed such a limitation should not be proposed because it would create other problems such as when bail is set by a "duty" or "on-call" issuing authority who does not know the defendant, but when the "proper issuing authority" is made aware of the case, he or she could modify bail accordingly. We also agreed that there should be the requirement of notice to the defendant³ and the attorney for the Commonwealth, and provide them with an opportunity to be heard. In this way, a formal motion procedure, which could lead to unnecessary delays, would not be required, but the "opportunity to be heard" would allow the defendant or attorney for the Commonwealth who opposes the change to "state his or her reasons." Thus under this new procedure the modification issue could be originated by the defendant, or the attorney for the Commonwealth, or even the issuing authority, as long as there is notice to the other parties, and an opportunity for them to be heard. Although the specific consent requirement would be deleted as no longer necessary, new paragraph (A) encompasses the consent situation. In addition, a new paragraph would be added to the Comment that would further explain the new procedures modify existing practice to permit the issuing authority to

We found that some jurisdictions allow the court sua sponte to modify bail, see, e.g., Arizona Rule of Criminal Procedure 7.4(b) and Ohio Rule of Criminal Procedure 46(E), but that most jurisdictions require a motion by the defendant or prosecuting attorney, see, e.g., Connecticut Rule of Criminal Procedure 38-14 and New Jersey Rule of Criminal Procedure 46.1(b)(2).

New paragraph (B) would retain, as a separate provision, the current paragraph (A) provision that a bail order may be modified by the issuing authority at the preliminary hearing. However, the requirement that modification occur "upon the request of either party" would be deleted as no longer necessary. The Committee believes the issuing authority has the authority to modify bail without the request being made by a party.

Concurrent Sentences and Credit for Time Served

The Criminal Procedural Rules Committee is planning to recommend that the Supreme Court of Pennsylvania amend Rule 705 (Imposition of Sentence). These changes would require the sentencing judge to state the date the sentence is to commence and to address credit for time served, and provide that a concurrent sentence commences on the date of imposition. This proposal has not been submitted for review by the Supreme Court of Pennsylvania.

The following explanatory Report highlights the Committee's considerations in formulating this proposal. Please note that the Committee's Report should not be confused with the official Committee Comments to the rules. Also note that the Supreme Court does not adopt the Committee's Comments or the contents of the explanatory Reports.

The text of the proposed rule changes precedes the Report. Additions are shown in bold; deletions are in bold and brackets.

We request that interested persons submit suggestions, comments, or objections concerning this proposal in writing to the Committee through counsel,

TITLE 234. RULES OF CRIMINAL PROCEDURE

CHAPTER 7. POST-TRIAL PROCEDURES IN COURT CASES

PART A. Sentencing Procedures

Rule 705. Imposition of Sentence.

(A) When imposing a sentence to imprisonment, the judge shall state the date the sentence is to commence, and shall address credit for time served as provided by law.

(B) Whenever more than one sentence is imposed at the same time on a defendant, or whenever a sentence is imposed on a defendant who is sentenced for another offense, the judge shall state whether the sentences shall run concurrently or consecutively. **If the sentence is to run concurrently, the sentence shall commence from the date of imposition unless otherwise ordered by the court.**

Comment

[In] This rule was amended in 1996, [paragraph (a) was amended and paragraph (c) was deleted] to eliminate language that created a presumption that certain sentences run concurrently unless the judge states otherwise. The rule now requires the judge to state whether sentences run concurrently or consecutively, **and by deleting former paragraph (B) as unnecessary. [Paragraph (b) was deleted as unnecessary.]**

The 2004 amendments adding new paragraph (A) and adding language to paragraph (B) clarifies the procedures for determining the date of commencement of sentences of imprisonment.

REPORT

Amendments to Pa.R.Crim.P. 705

CONCURRENT SENTENCES AND CREDIT FOR TIME SERVED

Introduction

The Criminal Procedural Rules Committee is proposing the Court amend Rule 705 (Imposition of Sentence) to provide that when a judge is imposing a sentence to imprisonment, the judge shall state the date of the commencement of sentence and address the credit for time served as provided by law. The Committee also is proposing a clarification that, when the sentence imposed is a concurrent sentence, the sentence commences from the date of imposition unless otherwise ordered by the court. These changes are intended to fill in the gaps in procedures that were created in 1996 when then paragraphs (b) and (c) of the rule (then Rule 1406) were deleted.¹

The Committee received correspondence pointing out that since Rule 1406 (now 705) was amended in 1996 "there is no statute or Rule providing that sentences ordered to run concurrently with sentences imposed on a prior date must run from the date of imposition," even though the Report explaining the 1996 changes indicated this area of sentencing procedure is governed by statute.

¹ See Committee Explanatory Final Report at 23 Pa.B. 5694 (November 23, 1996) explaining the 1996 changes to then-Rule 1406.

The correspondent noted that, because there is no guidance anywhere concerning these sentencing issues, there is a good deal of confusion among members of the bench and bar, and defendants who are sentenced. The Committee was asked to consider adding to the rule language similar to the language that was deleted from then Rule 1406 in 1996 concerning 1) the time when a concurrent sentence commences, and 2) the defendant receiving credit for time served.

In view of this correspondence, the Committee took a look at the Sentencing Code and the rules and confirmed there are no other provisions that sentences ordered to run concurrently with sentences imposed on a prior date must run from the date of imposition. Because we agree that these sentencing issues are confusing, the Committee concluded an amendment to Rule 705 would be helpful to the bench, bar, and defendants.

Discussion of Rule 705 Changes

During our discussions, the Committee considered changing Rule 705 by adding language that 1) if a sentence imposed is concurrent with another of the defendant's sentences, the sentence shall commence from the date of imposition and 2) the judge shall address credit for time served as provided for by law. We noted, however, that the language concerning commencement of sentences that had been in the rule prior to the 1996 changes addressed all sentences, not just concurrent sentences. We agreed, therefore, that the changes concerning commencement of the sentence should apply to all sentences, and incorporated into new paragraph (A) the concept from former Rule 1406(b) that the judge must state the date a sentence to imprisonment commences. The Committee also has added at the end of paragraph (A) the language "and shall address credit for time served as provided by law" to make it clear that when a judge imposes a sentence or sentences that are concurrent and states that the defendant is to receive credit for time served, the "credit time" is calculated as provided by law.

Paragraph (B) would retain the present Rule 705 language, with the additional provision "If the sentence is to run concurrently, the sentence shall commence from the date of imposition unless otherwise ordered by the court." This language makes it clear that the "starting date" for the sentence is the date of imposition, and from that point forward the sentence runs concurrently.

RULES AND REGULATIONS

Title 7—AGRICULTURE

MILK MARKETING BOARD

[7 PA. CODE CH. 150]

Milk Marketing Fees

The Milk Marketing Board (Board) amends Chapter 150 (relating to milk marketing fees) to read as set forth in Annex A. The authority for this final-form rulemaking is section 3 of the Milk Marketing Fee Act (act) (31 P. S. § 700k-3).

Notice of proposed rulemaking was published at 32 Pa.B. 3953 (August 10, 2002) with an invitation to submit written comments within 30 days. During the public comment period, the Board received comments from the Pennsylvania Association of Milk Dealers (PAMD) and from a milk hauler. The Senate Committee on Agriculture and Rural Affairs and the House Agriculture and Rural Affairs Committee offered no comments, suggestions or objections to the proposed rulemaking. The Independent Regulatory Review Commission (IRRC) did offer comments, which are discussed fully in this preamble.

In final-form rulemaking, the Board considered the comments and suggestions of the PAMD, the milk hauler and IRRC.

Purpose

The principal purpose of the final-form rulemaking is to adjust fees as necessary to reflect the administrative costs of issuing licenses, and to meet the Board's budget requirements. Article XI of the Milk Marketing Law (31 P. S. §§ 700j-1101—700j-1104) provides that all money collected by the Board from license fees and other sources shall be placed in a separate fund known as the Milk Marketing Fund (Fund), which is annually appropriated to the Board to pay its expenses. The Board is therefore self-supporting, receiving no revenues from the General Fund. Its chief source of revenue is license and certification fees. Monetary penalties paid by licensees in settlement of prosecution actions and miscellaneous income such as interest provide minor supplemental income. Of these sources, only license and certification fees are capable of meaningful adjustment to offset projected shortfalls. Under current funding, the Board projects steadily declining balances in the Fund. The Board is increasing fees at this time to cover projected deficits in the coming years.

A secondary purpose of the final-form rulemaking is to achieve greater clarity and consistency in the regulations.

Comments

Both the PAMD and IRRC objected to the size of the fee increases, and the hundredweight fees in particular. IRRC also questioned the need for the fee increase for the 2003-2004 fiscal year, when a deficit was not projected until the 2005-2006 fiscal year. The PAMD suggested that the increase should be phased in over time, and IRRC recommended that the hundredweight fee increase be reduced by at least 1/2 of the proposed increase.

The fee increase is necessary at this time to cure projected deficits in the Fund in the "out" years. The size of the proposed increase was simply the result of the Board following its historical practices. Traditionally, fee increases have been sufficient to sustain the Board for 10

years or more. The last previous fee increase was effective for the 1992-1993 license year, 11 years ago. The proposed increase was projected to sustain the Board through the license year 2013-2014.

However, in response to the comments from the PAMD and IRRC, the Board has decided to reduce the hundredweight fee increase by 1/2 of what was originally proposed, and to delay the increases for 1 year. The final-form rulemaking sets the hundredweight fee for milk for which the Board sets wholesale or retail prices at \$.045, and for milk for which the board does not set these prices at \$.0057. The hundredweight fee increases will take effect with the 2004-2005 license year (July 1, 2004—June 30, 2005); the increase in certification fees for milk weighers and samplers will take effect commencing with the 2004 certification year (January 1, 2004—December 31, 2004). These fees are projected to sustain the Board through the 2008-2009 license year.

IRRC suggested that the final-form rulemaking should designate the name or number of the form required by each provision, where the forms can be obtained and whether the forms are available from the Board's website. This suggestion has been implemented in the final-form rulemaking.

IRRC also suggested that the word "substantially" be removed from § 150.13(b) (relating to time for payment of fees). This change has been made in the final-form rulemaking.

The only other comment received was from a milk hauler who suggested that the milk hauler license and the weigher/sampler certificate be renewed every 2 years rather than the current 1-year period. The annual renewal of the milk hauler license and the weigher/sampler certificate is a requirement of the Milk Marketing Law (31 P. S. §§ 700j-101—700j-1302) and cannot be changed by rulemaking. A letter to this effect was sent to the milk hauler who submitted this comment.

Additional Changes in the Final-Form Rulemaking from the Proposed Rulemaking

Some additional changes have been made to the final-form rulemaking from the proposed rulemaking. These changes were made to improve consistency within and between sections, to clarify an ambiguity regarding the payment of monthly hundredweight fees by new applicants for milk dealer's licenses and to correct typographical errors which were found in the proposed rulemaking.

Since the term "fixed fee" is the term now being used throughout Chapter 150 to describe the annual fee that all applicants pay upon application or renewal, that term has been used to replace "annual fee" or "annual license renewal fee" in the text whenever these fees are referred to, and wherever necessary to distinguish between the fixed fee and other types of fees. This applies to §§ 150.11—150.13, 150.21—150.23 and 150.51—150.53. Similarly, the term "hundredweight fee" has been added to the text of § 150.13, and "quart-equivalent fee" has been added to the text of §§ 150.22 and 150.23 (relating to quart-equivalent fees; and time for payment of fees) to distinguish between these fees and the fixed fee.

In the proposed rulemaking, it was not clear that a new applicant for a milk dealer's license was subject to the monthly payment of the hundredweight fee. This was the result of the addition of § 150.11(b) (relating to fixed fees), which establishes a lower fee for an applicant for

annual renewal of a milk dealer's license. Section 150.12(b) (relating to hundredweight fees), which imposes the monthly hundredweight fee payments on dealers who were not licensed for the entire preceding calendar year, was amended in the proposed rulemaking by the addition of the clause "In addition to the annual license renewal fee imposed under § 150.11(b)..." Taken together, the additions to these two sections would imply that the monthly hundredweight fee was applicable only to applicants for annual renewal under § 150.11(b), but not to new applicants under § 150.11(a). Adding further confusion, the language added to § 150.13(c), regarding time for payment of fees, provided that "[a]n applicant for renewal of a milk dealer's license subject to the requirements of § 150.12(b)..." would be required to pay the monthly hundredweight fee. As stated previously, the implication is that only applicants for renewal are subject to the requirements of § 150.12(b).

To clarify this issue, the final-form rulemaking amends the first sentence of § 150.12(b) to read "In addition to the fixed fee imposed under § 150.11 (relating to fixed fees), a milk dealer that was not licensed for the entire calendar year preceding license application or renewal shall pay a monthly hundredweight fee as set forth in paragraphs (1) and (2)." Additionally, § 150.13(a) was amended to state that "A new applicant for a milk dealer's license shall pay the fixed fee imposed under § 150.11(a)... and shall submit the monthly hundredweight fee imposed under § 150.12(b)..." Finally, § 150.13 was amended by the removal of the phrase "subject to the requirements of § 150.12(b)" from subsection (c), accompanied by the addition of language to subsections (b) and (c) that will still differentiate between applicants who were licensed for the entire preceding calendar year (who pay the annual hundredweight fee at time of application) and those who were not licensed for the entire preceding calendar (who pay the monthly hundredweight fee each month).

The final-form rulemaking makes minor changes to § 150.12 to correct errors which appeared in the proposed rulemaking. In subsections (a)(2) and (b)(2) of the proposed rulemaking, the word "produced" was erroneously deleted from the text. This error has been corrected in the final-form rulemaking. In the same two paragraphs of the proposed rulemaking, the phrase "that is not included under paragraph (1) and that the milk dealer" appeared as an addition to the text. Upon further consideration, this phrase has been removed since it is redundant. Also, subsection (b)(1) and (2) of the proposed rulemaking both contained the phrase "for which the license is issued." This phrase does not appear in these paragraphs in the existing regulations and was not intended to be included in the proposed rulemaking. Since it was mistakenly included in the proposed rulemaking, the final-form rulemaking has simply omitted this phrase.

Paperwork Estimates

There will be no additional paperwork requirements for milk dealers, subdealers, milk haulers, milk testers or milk weighers and samplers.

Effective Date

This rulemaking will become effective 30 days after final-form publication in the *Pennsylvania Bulletin*.

Sunset date

There is no sunset date.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), the Board submitted a copy of the notice of proposed rulemaking, published at 32 Pa.B. 3953, to IRRC and to the Senate Committee on Agriculture and Rural Affairs and the House Agriculture and Rural Affairs Committee for review and comment.

In compliance with section 5(c) of the Regulatory Review Act, the Board also provided IRRC and the Committees with copies of comments received by the Board relating to the proposed regulation and the Board's response to those comments.

In preparing this final form rulemaking, the Board has considered the comments received from all commentators.

Annex A

TITLE 7. AGRICULTURE

PART VI. MILK MARKETING BOARD

CHAPTER 150. MILK MARKETING FEES

GENERAL PROVISIONS

§ 150.1. Definitions.

When used in this chapter, terms defined in section 103 of the act (31 P. S. § 700j-103) have the meanings given to them in that section, unless the context clearly indicates otherwise.

§ 150.2a. License year; certification year.

(a) The license year for milk dealers, subdealers and milk haulers is the period beginning on July 1 of a given year and ending on June 30 of the succeeding year.

(b) The certification year for milk testers and milk weighers and samplers is a calendar year.

LICENSE FEES OF MILK DEALERS

§ 150.11. Fixed fees.

(a) A new applicant for a milk dealer's license shall pay a fixed fee of \$100 for a license issued on or after July 1 but before October 1 of the same year or a proportionate fixed fee as follows:

(1) \$75 for a license issued on or after October 1 but before January 1 of the succeeding year.

(2) \$50 for a license issued on or after January 1 but before April 1 of the same year.

(3) \$25 for a license issued on or after April 1 but before July 1 of the same year.

(b) An applicant for annual renewal of a milk dealer's license shall pay a fixed fee of \$50.

§ 150.12. Hundredweight fees.

(a) In addition to the fixed fee imposed under § 150.11 (relating to fixed fees), a milk dealer that was licensed for the entire calendar year preceding license renewal shall pay an annual hundredweight fee as set forth in paragraphs (1) and (2).

(1) For milk for which the Board has fixed a minimum wholesale or retail price, received, produced or brought into this Commonwealth during the calendar year preceding the period for which the license is issued, the fee is \$.045 per hundredweight.

(2) For milk for which the Board has not fixed a minimum wholesale or retail price, received, produced or brought into this Commonwealth during the calendar year preceding the period for which the license is issued, the fee is \$.0057 per hundredweight.

(b) In addition to the fixed fee imposed under § 150.11, a milk dealer that was not licensed for the entire calendar year preceding license application or renewal shall pay a monthly hundredweight fee as set forth in paragraphs (1) and (2). Monthly payments shall continue until the milk dealer has been licensed for an entire calendar year and for each month thereafter until the next license year begins. Annual payments shall then commence under subsection (a).

(1) For milk for which the Board has fixed a minimum wholesale or retail price, received, produced or brought into this Commonwealth during the preceding month, the fee is \$.045 per hundredweight.

(2) For milk for which the Board has not fixed a minimum wholesale or retail price, received, produced or brought into this Commonwealth during the preceding month, the fee is \$.0057 per hundredweight.

(c) In computing hundredweight fees under subsections (a) and (b), the Board will ascertain and fix the fluid milk equivalent of milk other than fluid milk by dividing the pounds of butterfat in cream by 3.5 and the pounds of nonfat solids in condensed and concentrated milk by 8.8. For farm-separated sour cream used exclusively in making butter to be marketed or ultimately sold as such, the Board will compute the total quantity of milk based on pounds of butterfat or sour cream rather than on the fluid milk equivalent.

(d) Milk that was purchased by a milk dealer located in or outside this Commonwealth from an out-of-State producer, and was diverted to an out-of-State milk dealer, is not subject to a hundredweight fee. As used in this subsection, "diverted" means that the purchasing milk dealer took possession of producer milk at the farm, from which location it was delivered to another milk dealer without entering the purchasing milk dealer's plant.

§ 150.13. Time for payment of fees.

(a) A new applicant for a milk dealer's license shall pay the fixed fee imposed under § 150.11(a) (relating to fixed fees) when the applicant submits the milk dealer/subdealer license application (available from the Board Office or website), and shall submit the monthly hundredweight fee imposed under § 150.12(b) (relating to hundredweight fees) with the monthly report milk dealers must file under § 147.10 (relating to monthly reports).

(b) An applicant for renewal of a milk dealer's license that was licensed for the entire calendar year preceding license renewal shall pay the fixed fees imposed under § 150.11(b) and the annual hundredweight fee imposed under § 150.12(a) when the applicant submits the milk dealer/subdealer license renewal application (available from the Board Office or website). Title 25—ENVIRONMENTAL PROTECTION

INSURANCE DEPARTMENT UNDERGROUND STORAGE TANK INDEMNIFICATION BOARD

[25 PA. CODE CH. 977]

Owner and Operator Fees

The Insurance Department (Department) and the Underground Storage Tank Indemnification Board (Board) amend § 977.12 (relating to owner and operator fees) to read as set forth in Annex A. Sections 206, 506, 1501 and

1502 of The Administrative Code of 1929 (71 P. S. §§ 66, 186, 411 and 412) provide the Insurance Commissioner with the authority to promulgate regulations governing the enforcement of the laws relating to insurance. Section 705 of the Storage Tank and Spill Prevention Act (35 P. S. § 6021.705) provides the Board with the authority to promulgate regulations concerning the establishment of fees to be paid by participants in the Underground Storage Tank Indemnification Fund (Fund). Public notice of this amendment is impractical and unnecessary because the proposed changes are needed to ensure the solvency of the Fund and any input from the public would not decrease the necessity to increase the fees collected.

Notice of proposed rulemaking is omitted in accordance with section 204(3) of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. § 1204(3)) (CDL). In accordance with section 204(3) of the CDL, notice of proposed rulemaking may be omitted when the agency for good cause finds that public notice of its intention to amend an administrative regulation is, under the circumstances, impracticable and unnecessary.

Purpose

This final-omitted rulemaking will bring the fees to the appropriate levels as recommended by an actuarial report that was completed on September 25, 2003. After reviewing this report, the Board determined that this increase is necessary to maintain the solvency of the Fund for the public health and safety of this Commonwealth's citizens and their environment. The actuarial study, performed by Milliman USA, determined that an increase in the gallon and capacity fees was necessary to maintain the actuarial soundness of the Fund in the future.

Explanation of Regulatory Requirements

Section 977.12 is being amended to reflect the fees that the Board approved after extensive review and discussion of the report.

Fiscal Impact

An owner or operator transacting business in this Commonwealth will be affected by this final-omitted rulemaking. The fee increases approved by the Board are not significant, however, because despite these increases, the fees are only slightly higher than half as much of what they were when the program began in 1994.

The local municipalities will see an increase of approximately \$15.54 per quarter or \$62.17 per year (\$137,700 divided by 2,215 municipalities, including school districts). State-owned tanks are exempt from all Fund fees.

General Public

Because the public is a consumer of goods and services provided by owners and operators of an underground storage tank (UST) or a heating oil tank (HOT), any increase to the fees could result in higher prices to consumers. However, it is expected that this increase in fees will result in an additional \$.08 per month to motorists, in accordance with a survey on vehicle fuel consumption and expenditures by United States' households, conducted by the Energy Information Administration, Office of Energy Markets and End Use.

This increase is proposed to keep the Fund solvent after an actuarial study completed in September 2003 indicated the need for additional revenue, to maintain the Fund's actuarial soundness.

Effectiveness/Sunset Date

This final-omitted rulemaking will become effective January 1, 2004.

Paperwork

Adoption of this final-omitted rulemaking should not require any significant paperwork for the owners or operators of USTs or HOTs. The paperwork necessary after the increase is expected to be the same as before the increase was implemented.

Persons Regulated

This final-omitted rulemaking applies to all owners or operators of USTs and HOTs in this Commonwealth.

Contact Person

Questions regarding the final-omitted rulemaking may be addressed to Peter J. Salvatore, Regulatory Coordinator, Insurance Department, 1326 Strawberry Square, Harrisburg, PA 17120, (717) 787-4429. Questions may also be e-mailed to psalvatore@state.pa.us or faxed to (717) 772-1969.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on November 14, 2003, the agency submitted a copy of the amendment with the proposed rulemaking omitted to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Committee on Insurance and the Senate Committee on Banking and Insurance. On the same date, the amendment was submitted to the Office of Attorney General for review and approval under the Commonwealth Attorneys Act (71 P. S. §§ 732-101—732-506).

In accordance with section 5(c) of the Regulatory Review Act, the amendment was deemed approved by the Senate Banking and Insurance Committee on December 17, 2003, and deemed approved by the House Insurance Committee on December 17, 2003. The Attorney General approved the regulation on December 10, 2003. IRRC met on December 18, 2003 and approved the amendment.

Findings

The Insurance Commissioner finds that:

(1) There is good cause to amend § 977.12 effective upon publication with the proposed rulemaking omitted. Deferral of the effective date of this final-omitted rulemaking would be impractical and not serve the public interest. Under section 204(3) of the CDL, there is no purpose to be served by deferring the effective date. An effective date of January 1, 2004, will best serve the public interest by ensuring that fees have the full potential that the actuarial study predicted.

(2) There is good cause to forego public notice of the intention to amend Chapter 977, Subchapter B (relating to fees and collection procedures), because notice of the amendment under the circumstances is unnecessary and impractical because the changes proposed are necessary to ensure the solvency of the Fund and any input from the public would not decrease the necessity to increase the fees collected.

Order

The Insurance Commissioner, acting under the authority in sections 206, 506, 1501 and 1502 of The Administrative Code of 1929, orders that:

(a) The regulations of the Department, 25 Pa. Code Chapter 977, are amended by amending § 977.12 to read as set forth in Annex A.

(b) The Department shall submit this order and Annex A to the Office of Attorney General and the Office of General Counsel for approval as to form and legality as required by law.

(c) The Department shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect January 1, 2004.

Chairperson

Underground Storage Tank Indemnification Board

Fiscal Note: 11-219. (2) Implementing Year 2003-04 is \$68,850; (3) 1st Succeeding Year 2004-05 is \$137,700; 2nd Succeeding Year 2005-06 is \$140,454; 3rd Succeeding Year 2006-07 is \$143,263; 4th Succeeding Year 2007-08 is \$146,128; 5th Succeeding Year 2008-09 is \$149,051; (4) 2002-03 Program—\$69,466,774; 2001-02 Program—\$65,921,722; 2000-01 Program—\$49,971,701; (8) recommends adoption. The costs outlined are aggregate costs for municipalities, including school districts, with storage tanks. The gallon and capacity fee increases were recommended by an actuarial report. The increases should be considered a minimum step and assumes a continued unfunded liability.

Title 31—INSURANCE

INSURANCE DEPARTMENT

[31 PA. CODE CH. 84d]

Recognition of the 2001 CSO Mortality Table for Use in Determining Minimum Reserve Liabilities and Nonforfeiture Benefits

The Insurance Department (Department) adopts Chapter 84d (relating to recognition of the 2001 CSO mortality table for use in determining minimum reserve liabilities and nonforfeiture benefits) to read as set forth in Annex A.

Statutory Authority

The final-form rulemaking is adopted under the authority of sections 206, 506, 1501 and 1502 of The Administrative Code of 1929 (71 P. S. §§ 66, 186, 411 and 412), section 301(c)(1) of The Insurance Department Act of 1921 (40 P. S. § 71(c)(1)), section 410F(e)(8)(F) of The Insurance Company Law (40 P. S. § 510.1(e)(8)(F)) and 31 Pa. Code § 84c.5(a) and (b) (relating to general requirements for basic reserves and premium deficiency reserves). Likewise, this final-form rulemaking is made under the Department's rulemaking authority under the Unfair Insurance Practices Act (UIPA) (40 P. S. §§ 1171.1—1171.15) (as that authority is further explained in *PALU v. Insurance Department*, 371 A.2d 564 (Pa. Cmwlth. 1977)), because the Insurance Commissioner (Commissioner) has determined that, in and of itself, it is not a violation of the UIPA for a company to determine nonforfeiture benefits for the same type of policy of life insurance on both a sex-distinct and sex-neutral basis. See section 5(a)(7) of the UIPA (40 P. S. § 1171.5(a)(7)).

Comments and Response

Notice of proposed rulemaking was published at 33 Pa.B. 4297 (August 30, 2003) with a 30-day comment period. During the 30-day comment period, comments were received from the American Council of Life Insurers (ACLI) and the Insurance Federation of Pennsylvania, Inc. (IFP). Although the IFP commented on the preamble, neither the ACLI nor the IFP provided any substantive comments on the Annex and both parties supported the adoption of the rulemaking. The Independent Regulatory Review Commission (IRRC) did not submit any comments to the Department during its review. Therefore, no substantive changes were made to the Annex A in the final-form rulemaking.

However, the Department, in reviewing the proposed rulemaking as submitted and as printed, noticed two minor errors. The table of contents indicated that the definitions section is § 84d.1 and the purpose section is § 84d.2, while the body of the rulemaking had this reversed. The proper order is in the final-form rulemaking.

Also, when submitted, the term "regulation" was used in § 84d.3(a) (relating to 2001 CSO Mortality Table) but when published in proposed form, this term was changed

to "section." "Section" would not be appropriate here as the conditions in § 84d.3 apply to the entire chapter and not just this section. It was noted that the same term "regulation" was changed to "chapter" in several other subsections; therefore, the Department is requesting that the term "section" as used in § 84d.3(a) be changed to "chapter."

As these changes are relatively minor, the Department does not believe that the final-form rulemaking has changed substantially enough to request further comments.

Affected Parties

This final-form rulemaking will apply to insurers issuing life insurance coverage in this Commonwealth.

Fiscal impact

State Government

This final-form rulemaking will not increase costs to the Department due to the use of the new mortality table since the extent of the analysis performed by the Department is not affected by the mortality table used in the calculation of nonforfeiture benefits and reserves.

General Public

It is unlikely that there will be any adverse fiscal impact on consumers who purchase life insurance coverage. The use of the 2001 CSO Mortality Table may result in a reduction in nonforfeiture benefit amounts; however, with the highly competitive life insurance market in this Commonwealth, there will most likely be a reduction in the cost of insurance due to improved mortality recognized by the 2001 CSO Mortality Table.

Political Subdivisions

There will be no fiscal impact on political subdivisions, as insurers will continue to maintain adequate reserves and provide adequate nonforfeiture benefits. Adequate reserves have the potential to minimize insurer insolvencies that could result in less erosion of the tax base since insurers pay premium taxes on premium income and pay salaries that are taxed.

Private Sector

The final-form rulemaking will likely have no fiscal impact on insurance companies issuing life insurance coverage. Insurers will be required to expend some time to prepare and submit to the Department forms using the 2001 CSO Mortality Table.

Paperwork

This final-form rulemaking will not impose additional paperwork on the Department or the insurance industry. The final-form rulemaking provides for the use of an additional mortality table, and does not impose additional requirements resulting in additional paperwork.

Effectiveness/Sunset Date

This final-form rulemaking becomes effective on January 1, 2004. The Department continues to monitor the effectiveness of its regulations on a triennial basis; therefore no sunset date has been assigned.

Contact Person

Questions regarding this final-form rulemaking should be directed to Peter J. Salvatore, Regulatory Coordinator, Office of Special Projects, 1326 Strawberry Square, Harrisburg, PA 17120, (717) 787-4429, fax (717) 705-3873, psalvatore@state.pa.us.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on August 19, 2003, the Department submitted a copy of this final-form rulemaking to IRRC and to the Chairpersons of the House Insurance Committee and the Senate Banking and Insurance Committee.

In preparing this final-form rulemaking, the Department considered all comments received from IRRC, the Committees and the public. This final-form rulemaking was deemed approved by the House and Senate Committees on December 17, 2003. In accordance with section 5a(d) of the Regulatory Review Act (71 P. S. § 745.5a(d)), IRRC met on December 18, 2003, and deemed approved the final-form rulemaking in accordance with section 5a(e) of the Regulatory Review Act.

Findings

The Commissioner finds that:

(1) Public notice of intention to adopt this rulemaking as amended by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) The adoption of this rulemaking in the manner provided in this order is necessary and appropriate for the administration and enforcement of the authorizing statutes.

Order

The Commissioner, acting under the authorizing statutes, orders that:

(a) The regulations of the Department, 31 Pa. Code, are amended by adding §§ 84d.1—84d.6 to read as set forth in Annex A.

(b) The Commissioner shall submit this order and Annex A to the Office of General Counsel and Office of Attorney General for approval as to form and legality as required by law.

(c) The Commissioner shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(d) The regulation adopted by this order shall take effect January 1, 2004.

Insurance Commissioner

(c) For each policy form with separate rates for smokers and nonsmokers a company may use the 2001 CSO Mortality Tables in one of the following ways:

(1) The Composite Mortality Tables as the minimum nonforfeiture standard and the minimum valuation standard.

(a) The 2001 CSO Mortality Table shall be used in applying Chapter 84c (relating to valuation of life insurance policies) in the following manner, subject to the transition dates for use of the 2001 CSO Mortality Table in § 84d.3(a) (relating to 2001 CSO Mortality Table) and § 84d.3(b).

(1) The net level reserve premium referenced in § 84c.2(b)(2)(ii) (relating to applicability) shall be based on the ultimate mortality rates in the 2001 CSO Mortality Table.

(2) All calculations in § 84c.4(b)(1) (relating to segmented and unitary reserve methods) shall be made using the 2001 CSO Mortality Table. The value of “qx+k+t-1” is the valuation mortality rate for deficiency reserves in policy year k+t, but using the unmodified select mortality rates if modified select mortality rates are used in the computation of deficiency reserves.

(3) The basic reserves minimum standard in § 84c.5(a) (relating to general requirements for basic reserves and premium deficiency reserves) shall be the 2001 CSO Mortality Table.

(4) The deficiency reserves minimum standard in § 84c.5(b) shall be the 2001 CSO Mortality Table. If select mortality rates are used, they may be multiplied by X% for durations in the first segment, subject to the conditions specified in § 84c.5(b)(3)(i)—(ix). In demonstrating compliance with those conditions, the demonstrations may not combine the results of tests that utilize the 1980 CSO Mortality Table with those tests that utilize the 2001 CSO Mortality Table, unless the combination is explicitly required by regulation or necessary to be in compliance with relevant standards of practice as promulgated by the Actuarial Standards Board.

(5) The valuation mortality table used in determining the tabular cost of insurance in § 84c.6(c) (relating to minimum valuation standard for policies with guaranteed nonlevel gross premiums or guaranteed nonlevel benefits (other than universal life policies)) shall be the ultimate mortality rates in the 2001 CSO Mortality Table.

(6) The calculations specified in § 84c.6(e)(4) shall use the ultimate mortality rates in the 2001 CSO Mortality Table.

(7) The calculations specified in § 84c.6(f)(4) shall use the ultimate mortality rates in the 2001 CSO Mortality Table.

(8) The net premiums referenced in § 84c.6(g)(2) shall be calculated using the ultimate mortality rates in the 2001 CSO Mortality Table.

(9) The 1-year valuation premium in § 84c.7(a)(1)(ii) (relating to minimum valuation standard for universal life insurance policies that contain provisions resulting in the ability of a policy owner to keep a policy in force over a secondary guarantee period) shall be calculated using the ultimate mortality rates in the 2001 CSO Mortality Table.

(b) Nothing in this section expands the applicability of Chapter 84c to include life insurance policies exempted under § 84c.2(b).

§ 84d.5. Gender-blended tables.

(a) For any ordinary life insurance policy delivered or issued for delivery in this Commonwealth on and after January 1, 2004, that utilizes the same premium rates and charges for male and female lives or is issued in circumstances when applicable law does not permit distinctions on the basis of gender, a mortality table that is a blend of the 2001 CSO Mortality Table (M) and the 2001 CSO Mortality Table (F) may, at the option of the company for each policy form, be substituted for the 2001 CSO Mortality Table as the minimum nonforfeiture standard. The blended tables may not be used as the minimum valuation standard.

(b) If blended tables are used as the minimum nonforfeiture standard, the company shall choose from among the blended tables developed by the American Academy of Actuaries CSO Task Force and adopted by the NAIC in December 2002.

§ 84d.6. Permitted usage.

In and of itself, it is not a violation of the Unfair Insurance Practices Act (40 P. S. §§ 1171.1—1171.15) for a company to determine nonforfeiture benefits for the same type of policy of life insurance on both a sex-distinct and sex-neutral basis.

Title 61—REVENUE

DEPARTMENT OF REVENUE

[61 PA. CODE CHS. 113 AND 121]

Employer Withholding Provisions

The Department of Revenue (Department), under the authority contained in section 354 of the Tax Reform Code of 1971 (TRC) (72 P. S. § 7354), by this order amends §§ 113.2, 113.3, 113.3a, 113.3b, 113.4, 113.16 and 121.16 to read as set forth in Annex A.

Purpose of this Final-Form Rulemaking

This final-form rulemaking is intended to serve the following purposes:

1. Section 113.3(c) and (d) (relating to computing withholding of Pennsylvania Personal Income Tax) is being amended to add the provisions of the act of May 7, 1997 (P. L. 85, No. 7) (Act 7) relating to cafeteria plans and other employee compensation arrangements. See section 301(d) of the TRC (72 P. S. § 7301(d)).

2. The amendments establish new employer identification number requirements to facilitate the Department's Keystone Integrated Tax System.

3. The amendments establish new employer registration requirements to facilitate the common employer registration form of the Department and the Department of Labor and Industry.

4. The amendments change W-2 filing requirements in order to facilitate the Department's new Infoimage System and make more use of electronic and magnetic media.

5. The Federal employee reporting and withholding requirements for tip income are being adopted so that businesses will not have to deal with conflicting requirements at the Federal and State level.

6. The addition of § 113.16 (relating to enforceable trust fund) will enhance the Department's enforcement powers.

Explanation of the Final-Form Rulemaking

Section 113.2 (relating to compensation subject to withholding) is amended by adding a new paragraph (3) relating to tips. Employers are required to deduct and withhold tax on tips of which the employer has the control, receipt, custody or payment or that are reported by the employee and only to the extent that the employer can collect the tax by deducting it from the employee's compensation exclusive of tips.

Section 113.3 (relating to computing withholding of Pennsylvania Personal Income Tax) is amended by adding a new subsection (c) that addresses special situations pertaining to the deduction or payment of amounts by an employer for or on behalf of an employee. A new subsection (d) provides that amounts specified in a cafeteria plan as being available to the employee for purposes of selecting or purchasing benefits under a plan or as additional cash remuneration received in lieu of coverage are excludible from tax and withholding if certain enumerated conditions are met.

Section 113.3a (relating to employer identification number) is added to explain the various rules relating to Federal and State employer identification numbers.

Section 113.3b (relating to registration) details when an employer shall register with the Department.

Section 113.4 (relating to time and place for filing reconciliation and withholding statements) has been amended by deleting unnecessary language relating to the completion of W-2's for tax year 1971. Subsection (b) is updated to provide for the filing of quarterly withholding returns. Subsection (c) is amended by providing that reconciliation statements with accompanying withholding statements for each employee can be forwarded to the Department by means of first class mail or electronic or magnetic media. The subsection is further amended to provide that if an employer is required to file 250 or more withholding statements, the reconciliation statement with accompanying withholding statements shall be forwarded via electronic or magnetic media as specified in the instructions of the Department available on its website or at its Harrisburg or district offices.

Section 113.16 is added to provide guidance regarding deducted and withheld tax.

Finally, § 121.16 (relating to Form W-2) is deleted in its entirety, consistent with the changes regarding W-2 filing requirements previously referenced.

Affected Parties

Affected parties are employers, employees and tax professionals.

Comment and Response Summary

Notice of proposed rulemaking was published at 31 Pa.B. 4956 (September 1, 2001). This proposal is being adopted with changes to read as set forth in Annex A.

No comments were received from the public during the public comment period. No comments were received from the House and Senate Finance Committees. The Department did receive comments from the Independent Regulatory Review Commission (IRRC).

Amendments to the proposed rulemaking in response to comments are as follows:

1. In the proposal, the Department added § 113.3(d) and (e) to explain statutory trust fund provisions. In its comments, IRRC suggested that the trust fund provisions should be moved to a separate and distinct section. The Department agrees with IRRC's suggestion and creates a new § 113.16. The new language clarifies who may be held liable for withheld tax and how the amount of the liability is determined.

2. With regard to § 113.3(f)(3), since the nontaxable payments referenced are delineated in existing § 101.6 (relating to compensation), IRRC recommended that the Department insert a reference to § 101.6. The Department agrees and amends paragraph (3) accordingly.

3. In § 113.3b, IRRC suggested that the Department modify the section to state how employers can access a registration form. The Department agrees with IRRC's suggestion and amends the section accordingly.

4. Section 113.4(c) states that when employers file withholding statements by means of electronic or magnetic media, the date shall be forwarded as specified in the instructions of the Department. IRRC suggested that the Department explain what the instructions are and where they can be found. The Department agrees with IRRC's suggestion and amends subsection (c) accordingly.

Comment that did not result in an amendment to the regulation is as follows:

IRRC raised a concern with regard to proposed § 113.3(f) which provides that certain amounts specified in a cafeteria plan document are excluded from tax and

withholding if the enumerated conditions are met. IRRC indicated that paragraph (3) should appear as a separate subsection because it addresses payments that are outside of a qualifying cafeteria plan but are still nontaxable for Pennsylvania Personal Income Tax purposes. It is the Department's position that paragraph (3) should be read in conjunction with subsection (f)(1) and (2) and not as a separate, stand alone statement; therefore, no revision was made to the paragraph.

Fiscal Impact

This final-form rulemaking establishes specific requirements for the reporting and withholding of tips income. Instead of being remitted with the taxpayers' estimated or annual payments, tips income will be withheld by employers. As a result, tax collection on tips income will be accelerated to the extent that employers comply with the withholding requirements. This accelerated tax collection should result in tax savings and improved tax compliance of tips income earners.

Using an effective date of January 2004 (for calculation purposes only), and using an average interest rate at which the Commonwealth invests funds, the Department has estimated a tax revenue gain of about \$8.2 million for Fiscal Year 2003-04 and about \$0.5 million additional revenue in interest thereafter. This estimate may be overstated because actual interest earnings will depend on cash balances in the Treasury's funds and some taxpayers may qualify for 100% tax forgiveness. The estimate could be understated because the estimate assumes that these persons are reporting all of the tip income currently. To the extent that they are not, there could be an additional revenue increase.

Paperwork

This final-form rulemaking will not require additional paperwork for the public or the Commonwealth. This final-form rulemaking will reduce paperwork requirements in that form W-2 will no longer be required to be filed with each individual return.

Effectiveness/Sunset Date

This final-form rulemaking will become effective upon final publication in the *Pennsylvania Bulletin*. This final-form rulemaking is scheduled for review within 5 years of publication. No sunset date has been assigned.

Contact Person

The contact person for an explanation of the amendments is Anita M. Doucette, Office of Chief Counsel, PA Department of Revenue, Dept. 281061, Harrisburg, PA 17128-1061.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on August 17, 2001, the Department submitted a copy of the notice of proposed rulemaking, published at 31 Pa.B. 4956, to IRRC and the Chairpersons of the House Committee on Finance and the Senate Committee on Finance for review and comment. In compliance with section 5(c) of the Regulatory Review Act (71 P. S. § 745.5(c)), the Department also provided IRRC and the Committees with copies of all comments received, as well as other documentation.

In preparing this final-form rulemaking, the Department has considered the comments received from IRRC, the Committees and the public.

This final-form rulemaking was deemed approved by the Committees on November 5, 2003, and was approved

by IRRC on November 6, 2003, in accordance with section 5.1(e) of the Regulatory Review Act (71 P. S. § 745.5a(e)).

(2) The amendments are necessary and appropriate for the administration and enforcement of the authorizing statute.

§ 113.16. Enforceable trust fund.

(a) For purposes of assessment and collection of deducted tax and withheld tax that is not paid over to the Department, all taxes deducted and withheld from employees under this article or under color of this article shall constitute a trust fund for the Commonwealth and shall be enforceable against the employer, his representative, any person knowingly receiving a disbursement of any part of the fund, any person receiving a disbursement of any part of the fund without giving fair and valuable consideration therefore or any other person who is required to collect, account for and pay over the tax. The taxes will not be enforceable against a person receiving a disbursement from an employer if, before the negligent failure to truthfully account for and pay it over to the Commonwealth is discovered, the money is expended in payment of a genuine, uncontested and enforceable obligation, judgment, claim, lien or other liability of the person existing at the time the money was obtained or otherwise superior to the rights of the Commonwealth.

(b) Tax deducted from the State wages of an employee shall be considered to have been withheld at the time of payment of the State wages against which the deduction was charged.

(c) If an employer fails or refuses to pay over any withheld tax or to deposit it in a separate account in trust for and payable to the Department or otherwise identify and segregate it from other funds, it shall be deemed that:

(1) Withheld tax would be on deposit in the general operating account of the employer at the time of payment of the State wages from which deduction was made.

(2) The employer would disburse withheld tax last.

(3) Once withheld tax is disbursed, subsequent deposits would not replenish it.

(4) The lowest intermediate balance of cash on deposit in the general operating account is withheld tax that constitutes a trust fund for the Commonwealth that is enforceable against the employer or any person receiving any part of the fund.

(5) Any excess of the tax deducted over the lowest intermediate balance is withheld tax that has been received by the employer and disbursed.

STATEMENTS OF POLICY

Title 55—PUBLIC WELFARE

DEPARTMENT OF PUBLIC WELFARE

[55 PA. CODE CHS. 3270, 3280 AND 3290]

Emergency Plan

Scope

This statement of policy applies to child day care centers, group child day care homes, family child day care homes and other interested parties.

Purpose

The purpose of this statement of policy is to clarify that the Department of Public Welfare (Department) interprets §§ 3270.21, 3280.20 and 3290.18 (relating to general health and safety), to require that each child day care center, group child day care home and family child day care home must have an emergency plan.

Background

In this Commonwealth and around the country, emergency preparedness is receiving a great deal of attention in light of recent National and world events. The Department recognizes that an emergency plan in child day care facilities is vital to ensure the health and safety of children enrolled in child day care facilities. To respond to a variety of emergency events, each child day care center, group child day care home and family child day care home operator shall develop an emergency plan that addresses the facility's specific needs.

Discussion

An emergency plan enables the facility operator and staff persons to respond to a variety of events, including the following:

- Fire
- Bomb threat, threatening call or message
- Utility disruption (water, heat, electricity)
- Flood
- Medical emergency
- Severe weather (snow, ice storms, tornado, high wind, temperature extremes)
- Security/lockdown (civil disturbance, threat of violence, intruder, hostage, disgruntled employees or parents/guardians)
- Hazardous material spills
- Nuclear emergency
- Missing child
- Other emergencies

A facility operator should work with the Department's regional day care office and with the county Emergency Management Agency (EMA) in developing an emergency plan. Each county EMA is responsible for overseeing emergency plans in that county. The EMA coordinator can provide information to assist the facility operator in preparing an emergency plan specific to the needs of the facility and may be able to assist in determining appropriate alternative shelter, both on and off the child care site.

A facility operator should also consider the Department's regulatory requirements in developing the emergency plan. By regulation, an operator shall have procedures regarding fire drills, emergency medical care, emergency contact information and release of children to

a designated adult. In developing an emergency plan, the facility operator should consider the size and location of the facility, the needs of children in care and any unique circumstances that pertain to the facility which would require special attention. A facility operator may also want to request help in writing the emergency plan from available community resources and qualified National resources. In addition, the operator should involve parents of children in care in developing the plan.

The facility operator shall reevaluate the emergency plan at least annually and update the plan based on changes at the facility or in the community. The facility operator shall train facility persons as described in the applicable statement of policy.

Comments

Comments and questions regarding this statement of policy should be directed to Diana Ramiez, Bertolino Building, 4th Floor, Harrisburg, PA 17105, (717) 787-8082.

Effective Date

This statement of policy takes effect June 24, 2004.

ESTELLE B. RICHMAN,
Secretary

Request for Proposals for Evaluation of the Pennsylvania Teacher Quality Enhancement Grant

The Department of Education announces this Request for Proposals (RFP) to seek candidates to evaluate the effectiveness of its Accelerated Certification Program for Teachers (ACT) and components of the Aligning Curriculum to Standards in Pennsylvania Program (ACTS in PA). The goal of ACT and ACTS in PA is to aid in the recruitment, preparation and retention of quality teachers in high-need academic areas for preidentified school districts in this Commonwealth: Philadelphia school district (awarded to Eastern University/Chestnut Hill College/Gwynedd Mercy College, Cheyney University of Pennsylvania and Holy Family University); the Pittsburgh school district (awarded to the University of Pittsburgh/Duquesne University); and the school districts of Harrisburg, Allentown, Reading, York and Lancaster (awarded to Eastern University). This RFP will provide for an independent, formal and comprehensive evaluation of ACT, as well as examine specific aspects of ACTS in PA.

Funding Source and Eligibility Requirements

ACT and ACTS in PA are funded by the Department's successful application to the United States Department of Education Teacher Quality Enhancement Grant under Title II, Section 202 of the Higher Education Act. The

Commonwealth has up to \$90,000 per year to fund a comprehensive evaluation of the sponsored programs. Awards will be available for the term of the contract, up to 3 years. Funding is available on a competitive basis to any institution in this Commonwealth of postsecondary or higher education offering an approved teacher education program. However, postsecondary institutions directly connected to the implementation of ACT or ACTS in PA are ineligible.

Important Dates and Application Deadline

The contract period is from March 1, 2004, through September 30, 2006. There will be a pre-proposal conference on January 15, 2004. Proposals must be submitted by February 20, 2004, to receive consideration. Electronic or faxed copies of the application will not be accepted. Prospective contractors may download application materials from the Department's website: www.teaching.state.pa.us.

The applications concern, but are not limited to, discharges related to industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFOs). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>

Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the EPA Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a statement to the contact office noted before the application within 30 days from the date of this public notice. Persons wishing to comment on a WQM permit application are invited to submit a statement to the office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after any public hearings are held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the

intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office after which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

Northcentral Region: Environmental Cleanup Program, 208 West Third Street, Williamsport, PA 17701.

Pennsylvania State University—Eastview Terrace Housing Complex—Soil, State College Borough, Centre County. Meiser & Earl, Inc., on behalf of The Pennsylvania State University, Office of Physical Plant, University Park, PA 16802, has submitted a Notice of Intent to Remediate soil contaminated with fuel oil no. 2. The applicant proposes to remediate the site soils to meet the Statewide Health Standard. A summary of the Notice of Intent to Remediate was reported to have been published in the *Centre Daily Times* on November 14, 2003.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. The permittee shall take appropriate action to minimize emissions from the affected facility while the corrective actions are being implemented. The Department shall notify the permittee with 30 days, if the corrective actions taken are deficient. The permittee shall submit a description of additional corrective actions taken to the Department within 30 days of receipt of the notice of deficiency. The Department reserves the authority to use enforcement activities to resolve noncompliant stack tests.

24. If the results of the stack tests performed in conformance with the conditions of this plan approval exceed the emission levels specified in any condition of this approval, a retest to demonstrate compliance shall be performed within 120 days of receipt of the original test results. Should the permittee demonstrate to the Department that retesting in 120 days is not practicable, the Department may extend the deadline. Failure of the second test to demonstrate compliance with the appropriate approval conditions may be grounds for immediate revocation of the approval to operate the affected facility.

Records will be kept of amounts of RAP processed and the percentage of RAP used in both top and base mixes. At least one of the runs during stack testing shall be performed when the maximum percentage of RAP is being added to the mix. This percentage of RAP will become the legal operating limit of RAP for the plant.

27. This source is subject to Subpart I of the Standards of Performance for New Stationary Sources and shall comply with all applicable requirements of this subpart; 40 CFR 60.4 requires submission of copies of all requests, reports, applications, submittals and other communications to both the EPA and the Department. Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35

P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

Proposed Revision to the State Implementation Plan for Ozone for the Philadelphia Ozone Nonattainment Area; Public Hearing

Ground-level ozone concentrations above the Federal health-based standard are a serious human health threat and can also cause damage to crops, forests and wildlife. The Department of Environmental Protection (Department) is seeking public comment on a State Implementation Plan (SIP) revision for the Philadelphia ozone nonattainment area (Bucks, Chester, Delaware, Montgomery and Philadelphia Counties).

The Clean Air Act requires the Philadelphia area to have made incremental reductions in the emissions that cause ground-level ozone through 2005. The United States Environmental Protection Agency (EPA) approved the most recent "rate of progress" demonstration in October 2001. In January 2002, the EPA revised the methodology by which highway vehicle emissions are calculated. The Department is now proposing to revise its SIP to include a demonstration that the area continues to meet the 2005 rate of progress requirements with this new methodology.

This proposal is available through the following contact persons or on the Department's website: www.dep.state.pa.us (DEP Keyword: Clean Air Plans).

The Department will hold a public hearing to receive comments on the SIP revision on Thursday, January 29, 2004, at 1 p.m. at the Delaware Valley Regional Planning Commission, The Bourse Building, 111 South Independence Mall East, 8th Floor, Philadelphia. Directions can be found at www.dvrpc.org.

Persons wishing to present testimony at the hearing should reserve a time by contacting Susan Ferree, P. O. Box 8468, Harrisburg, PA 17105, (717) 787-9495. Persons who do not reserve a time will be able to testify after pre-registrants. Witnesses should keep testimony to 10 minutes and should also provide two written copies of their testimony at the hearing. Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceeding should contact Wick Havens, (717) 787-9495. TDD users may contact the AT&T Relay Service at (800) 654-5984 to discuss how the Department can best accommodate their needs.

Written comments on the proposed revisions to the SIP should be sent to Wick Havens, Chief, Division of Air Resource Management, Bureau of Air Quality, P. O. Box 8468, Harrisburg, PA 17105-8468 by the close of business on January 30, 2004.

The contact is for 3 years with a 2-year renewal.

To request a copy of the Request for Proposals (RFP), contact the Bureau of Human Resources, Department of Environmental Protection, Rachel Carson State Office Building, 400 Market Street/2nd Floor, Harrisburg, PA 17105-2357, (717) 783-5374, (717) 787-2938, nhuizinga@state.pa.us. DEPARTMENT OF PUBLIC WELFARE

Payment for Nursing Facility Services; Change of the Definition of MA Day of Care

The purpose of this announcement is to provide advance notice under 42 CFR 447.205 that the Department of Public Welfare (Department) intends to make changes in its methods and standards for payment of Medical Assistance (MA) nursing facility services beginning fiscal year 2003-2004. More specifically, the Department intends to publish a proposed rulemaking which, if adopted, will amend 55 Pa. Code § 1187.2 (relating to definitions) by changing the definition of "MA day of care."

The expansion of the HealthChoices Program and the expansion of the Long Term Care Capitated Assistance Program (LTCCAP) has increased the likelihood that an MA recipient who is admitted to a nursing facility will be enrolled in either a managed care organization (MCO) under contract with the Department or the LTCCAP. As a result, MCOs and LTCCAP providers will pay nursing facilities for a greater number of resident days of care.

Neither an MCO or LTCCAP paid day of care qualifies as an MA day of care as the term is currently defined in 55 Pa. Code § 1187.2. The Department intends to propose amendments to the regulatory definition that would expand the definition of an MA day of care to include days of care for which an MCO under contract with the Department or LTCCAP provider pays 100% of the negotiated rate or fee for the MA resident's care in a nursing facility and days of care for which the resident and an MCO under contract with the Department or LTCCAP provider pays 100% of the negotiated rate or fee for the MA resident's care in the nursing facility. In addition, the Department intends to propose amendments that would further expand the definition of an "MA day of care" to include days of care for which the Department makes payment for MA residents receiving hospice services in a nursing facility.

The Department will propose that this change in the definition of an "MA day of care" should take effect January 1, 2004, and should apply to disproportionate share incentive payments for fiscal periods ending on and after December 31, 2003, and to the MA case-mix index for picture dates beginning February 1, 2004.

Fiscal Impact

If these proposed amendments to the definition of an "MA day of care" are adopted, the Department estimates that annual aggregate expenditures for MA nursing facility services for FY 2003-2004 will increase by \$500,000 (\$212,000 in State funds).

Public Comment

A copy of this notice is available for review by contacting Gail Weidman, Long Term Care Policy Section, (717) 705-3705. Interested persons are invited to submit writ-

ten comments regarding this notice to the Department within 30 days of publication of this notice in the *Pennsylvania Bulletin*. Comments should be addressed to Department of Public Welfare, Division of Long-Term Care Client Services, Attn: Gail Weidman, P. O. Box 2675, Harrisburg, PA 17105.

Following review and consideration of any comments received in response to this notice, the Department intends to publish notice of proposed rulemaking in the *Pennsylvania Bulletin* announcing the proposed change in the definition of "MA day of care."

Persons with a disability may use the AT&T Relay Service, (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

Finding Wayne County

Under section 2002(b) of The Administrative Code of 1929 (71 P. S. § 512(b)), the Secretary of Transportation makes the following written finding:

The Federal Highway Administration and the Department of Transportation (Department) plan to replace the Mill Creek Bridge carrying SR 0191 over Mill Creek in Haags Mill, Dreher Township, Wayne County. The subject project will require use of the National Register-listed Mill Creek Bridge.

The environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code of 1929 have been considered. It has been concluded that there is no feasible and prudent alternative to the project as designed, and all reasonable steps have been taken to minimize effects. To minimize the harm to the Section 2002 property impacted by the project, the following measures will be taken.

Prior to demolition or construction activities for the Mill Creek Bridge replacement, the Department will ensure that the bridge is documented in its existing setting and context in accordance with State level recordation standards that documentation will be submitted to

the State Archives for retention. Landscaping and designs for the new bridge will be developed in consultation with the State Historic Preservation Officer to ensure that the work is compatible with the character of the Lower Mill Creek Historic District. The Department will ensure the salvage of the upstream keystone and the date stone located in the upstream parapet of the bridge during demolition/construction. The Department will ensure the design and installation, on the top of the upstream north stream bank, of a permanent display pedestal veneered with stone salvaged from the arch and incorporating the keystone, date stone and an interpretive plaque. The Department will ensure the design, manufacture and installation of two permanent locational road signs on the north and south approaches to the historic district on SR 0191. The Department will ensure that additional copies of the Phase I Cultural Resources Survey Report are prepared for distribution to local schools, libraries and historic groups.

The Secretary has considered the environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code of 1929 and has concluded that there is no feasible and prudent alternative to the project as designed and all reasonable steps have been taken to minimize the effect.

Department of Transportation—Vehicle Equipment and Inspection; Regulation No. 18-385

On November 14, 2003, the Independent Regulatory Review Commission (Commission) received this regula-

tion from the Underground Storage Tank Indemnification Board (Board). This rulemaking amends 25 Pa. Code Chapter 977. Notice of proposed rulemaking was omitted for this regulation; it will become effective upon publication in the *Pennsylvania Bulletin*.

This final-omitted regulation raises the gallon and capacity fees charged by the Board. Upon review of the annual actuarial report, the Board is increasing these fees by 10% to maintain the solvency of the Underground Storage Tank Indemnification Fund.

We have determined this regulation is consistent with the statutory authority of the Board (35 P. S. § 6021.705) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P. S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b).

The Commission has issued comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

Reg. No.	Agency/Title	Close of the	IRRC
		Public Comment Period	Comments Issued
7-385	Environmental Quality Board Bond Adjustment and Bituminous Mine Subsidence Control Standards (33 Pa.B. 4554 (September 13, 2003))	11/12/03	12/12/03

Environmental Quality Board Regulation No. 7-385 Bond Adjustment and Bituminous Mine Subsidence Control Standards December 12, 2003

We submit for consideration the following comments that include references to the criteria in the Regulatory Review Act (71 P. S. § 745.5b) which have not been met. The Environmental Quality Board (EQB) must respond to these comments when it submits the final-form regulation. The public comment period for this regulation closed on November 12, 2003. If the final-form regulation is not

delivered within 2 years of the close of the public comment period, the regulation will be deemed withdrawn.

Coordination of State and Federal final regulations.—Statutory authority; Implementation procedures.

This rulemaking satisfies conditions set forth by the Federal Office of Surface Mining and Reclamation and Enforcement (OSM). Section 503(a) of the Federal Surface Mining Control and Reclamation Act (30 U.S.C.A. § 1253(a)) permits a state to assume primacy if its laws and regulations are consistent with Federal laws and regulations. The Commonwealth must meet these conditions to maintain primary enforcement authority over coal mining.

The OSM initiated two rulemakings to assist the Commonwealth in this task. The first OSM rulemaking (68 FR 55134—55137 (December 27, 2001)) will supercede six portions of the Bituminous Mine Subsidence and Land Conservation Act (BMSLCA) (52 P. S. §§ 1406.1—1406.21) that are less effective than their Federal counterparts. The second OSM rulemaking (68 FR 55106—55134 (September 22, 2003)) seeks comments on the EQB's proposed regulations regarding the BMSLCA.

The EQB's existing regulations were promulgated under the statutory authority of the BMSLCA and other Commonwealth statutes. We believe that the EQB does not have the statutory authority to promulgate this regulation until the first OSM rulemaking is in effect. Promulgation of the EQB's rulemaking before the relevant portions of the BMSLCA are superceded by the first OSM rulemaking would result in a conflict between the EQB's regulations and the BMSLCA. Therefore, we recommend that the EQB does not deliver this rulemaking in its final-form until the first OSM rulemaking has been finalized.
